

## Karsan... From Past to Present

It was in 1966 that Karsan set out on its journey with the desire to “**move its country forward**”.

Throughout this journey, Karsan has produced for the world’s automotive giants and developed its own branded products that stand out for their originality in the field of public transportation. As a result, Karsan has become a rising brand in Turkey.

With its business partnerships and game-changing innovations, **Karsan** today operates in **20 different countries** around the world.

Karsan’s focus on satisfaction of businesses and societies has driven the company to develop **innovative designs**, which now embodies in **100% Electric Bus**.

Boasting an **innovative brand DNA** and a mission to provide sustainable solutions, Karsan moves forward with full momentum and expands its product range continuously by integrating innovations in electric vehicle technology that is shaping the future.

Innovating sustainable solutions with the passion to leave a greener future for next generations, the story of Karsan today continues on by carrying;  
cities to the future,  
communities to a greener world,  
companies to profitability,  
and business partners to success all around the world.
